Dotty,

Please put certain files in the attached excel file (just the ones that show an "x" in the "Add to SDMS" column) into SDMS for the indicated sites (one for Star Lake and the rest for San Jacinto) – they are internet links/files that hopefully can be copied into the in-file form. Some number of them don't have a date or an obvious title, so just do the best you can with it.

Thanks,

Gary Miller

Jessica,

The updated spreadsheet is attached. However, several things need clarification, as follows:

Several of the listed documents for San Jacinto are web sites – for example, one is the San Jacinto Community Involvement web site (http://www.epa.gov/region6/6sf/texas/san_jacinto/community.html); this web site includes text as well as multiple nested links to other pages, documents, etc.; please clarify what you are requiring for input into SEMS.

Thanks,

Gary Miller

Subject: List of Site Profiles

Importance: High

Good Afternoon Gary,

This is a reminder that completed spreadsheets are due back to me by **Friday, July 18th**. You're receiving this email because you have not submitted a complete spreadsheet yet.

As part of the push to finish these new Site Profiles, I need you to review the attached spreadsheet. The spreadsheet contains a list of documents that are on the web for sites you manage. I've provided the site name and the URL for each document.

I need you to verify whether or not the documents are in SEMS.

If they are, put an X in the "In SEMS" column.

If they are not, put an X in the "Add to SEMS" column.

If they don't belong in SEMS but need to be kept available for the public, put an X in the "Archive" column.

If they can be deleted, put an X in the "Delete" column.

After completing the spreadsheet, you will need to upload all of the "Add to SEMS" documents into SEMS.

Once the Site Profiles are live, I will remove all of the documents from the internet server and delete the pages they are linked on. All of the documents will be available through the new Site Profiles.

The deadline to return the completed spreadsheet to me and add any identified documents into SEMS is July 18th.

Please let me know if you have any questions.
